

TV·EARS®

Dr. Recommended TV Listening Devices

Seat Side Charger Instructions

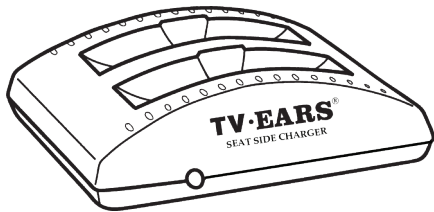

Included: Seat Side Charger & AC Adapter

Instructions

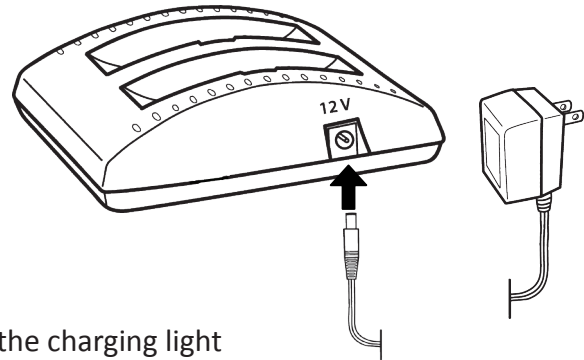

Step | 1

Place the Seat Side Charger on your coffee table, your couch, or anywhere desirable. (Note: the Seat Side Charger does not need to be near your TV, its sole purpose is to charge your headset).

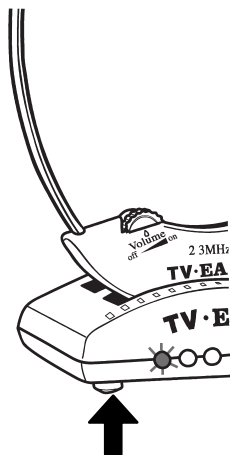

Step | 2

Plug the end of the AC adapter into the port labeled '12V' on the back of the seat side charger. Then plug the AC adapter into a standard electrical outlet or surge protector.

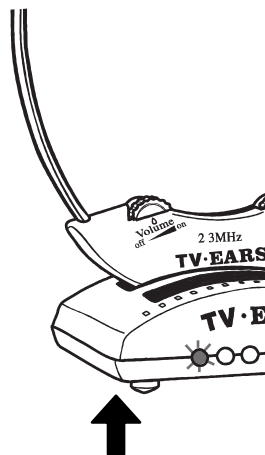

Step | 3

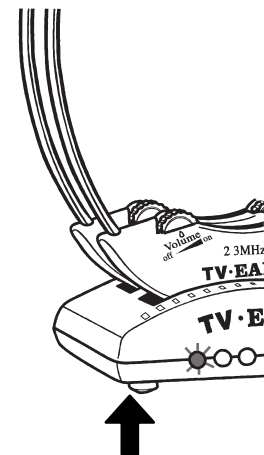

Place headset into the Seat Side Charger. Check to see that the charging light illuminates. The light will glow green if the headset is placed in the front charging cradle, red if placed in the rear cradle, and amber if a headset is placed in each cradle. (Note: you can not over charge the batteries in the headset).

Front cradle Green Light

Rear cradle Red Light

Two Headsets Amber Light
